Staff Comments:

The applicant is requesting site plan approval for a 6,329 sq. ft. retail building on the southeast corner of Church Road and Swinnea Road. Per the application, the overall site will include a separate building pad and additional parking above and beyond the section that is being requested for approval in this application. As shown on the site plan, the parcel has two access points both showing thirty feet (30) in width, which allow for two way access. The site allows for traffic circulation around two sides of the building with an additional single lane drive along the back side of the building on the south end of the property. The east boundary has been designed with no access to provide proper screening for the abutting residential property owner in Dustin’s Place Subdivision. As stated in the zoning ordinance, side yard setbacks are not required for this commercial area; however, a masonry wall along the building line will be required to further screen the residential property to the east. The south boundary abuts residential office lots that area vacant therefore screening beyond the bufferyard is not required.

Staff Recommendations:

During the rezoning phase of this development and preliminary site plan meetings, staff spoke with the applicant and required them to correspond with the adjacent residential property owner to ensure screening between the two lots is acceptable on both sides. That being said, it is the intent of the wall to screen the residential property to the east; however, staff must also ensure that the wall does not obstruct visibility on Church Road when exiting the site. Staff requested the city engineer to visit the site and ensure the visibility triangle is not obstructed by the wall. It is recommended that the wall extend to the starting point of the existing wood fence which is located outside of the Church Road right of way at the north end of this property. It is also recommended that the wall stay on the west side of the treeline to aid the screening. As stated in the definition of Neighborhood Commercial, the applicant needs to assure staff that the additional tenant space, not associated with the State Farm office, will comply with the 2,500 sq. ft. requirement. Additionally, staff would like to see both access points decreased to the standard size of twenty four (24) feet which will still allow two way access onto the site; however, the thirty (30) foot apron can remain. A fire lane designation has not been provided on site per the submitted design; therefore, staff will require that the applicant meet with the Fire Marshal to determine the access points for fire apparatuses. With these comments in mind, staff recommends approval.

Design Review Staff Report

City of Southaven City Hall
Executive Board Room
8710 Northwest Drive

Date of Hearing:	July 23, 2013
Public Hearing Body:	Board of Alderman
Applicant:	Ryan England 468 Church Road Southaven, MS 38672 662-349-1550
Total Acreage	2.00 acres
Existing Zoning:	Neighborhood Commercial (C-4)
Location of Site Plan application:	Southeast corner Swinnea Road and Church Road

Staff Comments:

The applicant is requesting design review approval for a 6,329 sq. ft building on the southeast corner of Church Road and Swinnea Road. The following design criteria have been submitted by the applicant:

Building Elevations:

The building is proposed as a mixture of brick and EFIS. The building is shown as a red brick veneer with a beige tone EFIS material as an accent piece over the main entry points at each end of the building. To break up the brick line of the wall façade the applicant has proposed a brick soldier line at the water table just below the windows. The soffits and fascia of the building are painted a brown hue. To comply with the design requirements of the neighborhood commercial zone, the applicant has provided a residential style pitch on the roof and architectural shingles. The windows are residential style by design with wood veneer shutters. Windows are shown on all four sides of the building. Standard metal exit doors painted to match the soffits and remaining fascia are shown on the rear of the building. The two main doorways on the front as well as the doorway on the east side adjacent to the covered canopy have a bronze aluminum clad

material shown. The main entry points at each end of the building are identified by brick columns and an arched canopy area which extend beyond the main building line. On the east elevation of the building, the applicant has provided a covered concrete area, presumably for storage of a vehicle. This covered area is designed with brick columns to match the rest of the building.

Landscaping:

The applicant is proposing the following array of materials for the site:

- Large shade trees: Allee Elms at 3.5” caliper
- Ornamental trees: Yoshino Cherry at 3.5” caliper; crepe myrtle at 3 gallon
- Shrubs: Nellie Stevens Holly, Carissa Holly, Encore Azaleas and Ornamental grasses all at 3 gallons
- Additional plantings: Liriope 2” in size with 8” spacing, Bermuda sod

The applicant has provided the streetscape along Church Road with a double row of Carissa Holly abutting the parking stalls with Crepe Myrtles along the frontage. At the entry point on Church Road, the applicant has provided a planting bed on the east side which consists of ornamental grass and crepe myrtles with a Yoshino Cherry tree as accent. On the west side of the entrance is where the monument sign for the center is located. The applicant is proposing a Yoshino Cherry tree behind the sign with a perimeter line of Carissa Hollies around the base of the sign. The median located at the west end of the parking lot for this phase has also included a Yoshino Cherry tree. Around the perimeter of the building the applicant is showing a mixture of Nellie Steven Holly, Encore azaleas, and ornamental grass. Additionally, the applicant is showing crepe myrtles along the front and onto the west side. Encore azaleas have been placed in a single row for a short span along the east side to provide additional screening associated with the canopy area. The rear boundary of the lot is proposed with Allee Elms every sixty (60) feet with three crepe myrtles between each elm. The dumpster, which is located between the main structure and the future building pad shown on the plan is screened with a single row of Encore azaleas.

Staff Recommendation:

Staff is agreeable to the proposed building elevations submitted by the applicant. It can only be assumed that the dumpster screening is in compliance with requirements which state that the wall must be constructed with the same materials as the building and must be, at minimum, one foot above the dumpster itself. The gated materials for the dumpster site must be painted to match the building also. Assuming these requirements have been met by the applicant, staff has no comment regarding elevations.

This site is a very visible area of the city and it also located in a special corridor per the zoning ordinance. That being said, the landscape plan submitted by the applicant will need some adjustments to comply with the stricter guidelines:

- The streetscape along Church Road needs to be a meandering line of shrubs as opposed to the straight line along the parking curb. As shown on the design, the applicant is proposing a row of three crepe myrtles planted at a 1:20 ratio along

the streetscape in front of the shrub line. Staff would have the applicant place an additional tree at the west end of this phase. Also, staff would request that the applicant alternate crepe myrtles and yoshino cherry trees along this area and also replace the front row of Carissa Holly with Firepower Nandinas to provide more color in this area.

- Around the monument sign, staff would request changing the Carissa Holly to a colorful evergreen such as golden mop.
- The 3 proposed Yoshino Cherry trees on the north side of the parking lot should be replaced with a shade tree species. This area is far enough removed from the power lines so the height will not be an issue. Staff suggests Allee Elms, Scarlet Oak or Tupelo Black Gum.
- On the south side of the parking lot, staff would like to see either Thuja or Italian Cypress at 2.5" caliper, which provide winter color for the site.
- Replace the crepe myrtle between the two entry points of the building with a Yoshino Cherry.
- Replace the Encore Azaleas with 4' Nellie Steven Hollies around the dumpster wall.
- For all of the shrubbery identified as 3 gallon in size, the applicant needs to identify an eighteen (18) inch minimum height and for the crepe myrtles a 3 cane minimum and 10'-12' height.

The future phasing of this development should have the same planting design as this approved application. The entry point on Swinnea Road will need to mirror the entry point on Church Road. Pending the applicant can comply with the recommendations and revisions stated in this report, staff recommends approval.

WHEREAS, the City has made a finding that it is in the best interest of the citizens and tax payers of the State of Mississippi and the City for the Surplus Property to be transferred as set forth herein. Such transfer being for the purpose of aiding the Bureau's promotion and development of convention business and tourism within the City and DeSoto County; and

WHEREAS, the Bureau is a governmental entity as defined by the Public Purchases Statute and Miss. Code Ann. § 31-7-13(m)(vi) permits intergovernmental sales and transfers of commodities at below market value between governmental entities when certain findings, such as those herein, have been made.

NOW, THEREFORE, FOR AND IN CONSIDERATION of the mutual covenants and agreements contained herein and pursuant to the authority of Miss. Code Ann. ' 31-7-1, et seq, of the Mississippi Code of 1972, the City and the Bureau do hereby covenant, contract and agree as follows:

1. The Bureau shall pay to the City the sum of Fifty Dollars (\$50.00) per panel and Fifty Dollars (\$50.00) per gate, for a total of Four Thousand Two Hundred Dollars (\$4,200.00) (the Purchase Price), for the purchase of the Surplus Property.

2. Within thirty (30) days of the date of last signature on this agreement, the Bureau shall issue payment to the City for the Purchase Price. Upon receipt of payment from the Bureau for the Purchase Price, the City shall deliver to the Bureau all rights of possession and title to the Surplus Property. Further, the Bureau shall make arrangements to take physical possession of the Surplus Property from City and remove it from the City's place of storage.

3. If requested by the Bureau the City will execute a bill of sale, such certificate of title as is required by law, and any other reasonably requested documents necessary to effectuate the transfer of Surplus Property.

4. The Bureau shall assume the risk of loss of the Surplus Property at such time as the City gives physical possession of the Surplus Property to the Bureau or its agents.

5. Miscellaneous Provisions.

a. This Agreement may be terminated by either party upon the giving of thirty (30) days' prior written notice to the other party, or upon the mutual written agreement of the City and Bureau. Notwithstanding the foregoing, neither the City nor the Bureau are permitted to terminate this agreement after the City has received payment of the Purchase Price unless such termination is mutually agreed to.

b. Neither this Agreement nor any of its terms may be changed or modified, waived, or terminated except by an instrument in writing, approved by the governing body of each party, with such approval spread upon its official minutes, and signed by each parties authorized representative.

c. The failure of any party to insist upon strict compliance by another party shall not be deemed a waiver of its right to do so in the future.

d. In case any one or more provisions set forth in this Agreement shall for any reason be held invalid, illegal or unenforceable in any respect, any such invalidity, illegality, or unenforceability shall not effect any other provision of this Agreement and this Agreement shall be construed as if such invalid, illegal, or unenforceable provision had never been incorporated therein.

f. The parties each represent that the person executing this Agreement on behalf of such party has the power and authority to enter into this Agreement and such entity has the authority to consummate the transactions herein contemplated. All proceedings required to be taken by or on behalf of each party to authorize it to make, deliver and carry out the terms of this Agreement have been or will be duly and properly taken by each party and this Agreement is the legal, valid and binding obligation of the parties and is enforceable in accordance with its terms.
