Code Adoption Announcement

The list of codes below has been adopted to replace the editions that are currently enforced. **Effective January 1, 2021** the 2012 International Codes will be replaced by the **2018 editions of the ICC codes and references.**

Projects that are already under way or have started the review process with the Planning and Zoning Department before January 1, 2012 will be allowed to be designed to the 2012 editions of the codes. Any projects that begin the process after January 1, 2012 must be designed to the 2018 editions.

2018 International Residential Code

2018 International Building Code including the 2018 International Energy Conservation Code by reference.

2018 International Fire Code

2018 International Plumbing Code

2018 International Mechanical Code

2018 International Fuel Gas Code

2017 International Electrical Code as referenced by the International Building Code

2018 Swimming Pool and Spa Code

2018 International Existing Building Code

Respectfully,

James S. Gentry
Chief Building Official
